

WAFER BUTTERFLY VALVE

Wafer pattern butterfly valve ideal for pipeline isolation and modulation. Suitable for clean water applications up to 90°C.

FEATURES

- EN593
- Replaceable disc materials
- Various disc materials
- Various liner materials
- Install between PN6/10/25 Flanges
- Face to face according to EN55 Series 20
- WRAS approved
- Larger sizes on request
- Notched lever

MATERIAL SPECIFICATION

DESCRIPTION	MATERIAL	SPECIFICATION
Body	Cast Iron	EN-GJL-400
Disc	Stainless Steel	AISI 316
Liner	EPDM	
Stem	Stainless Steel	AISI 316
Bearing	PTFE	
Coating	Fusion Bonded Epoxy Resin
